Adobe After Effects
Da Vinci

Professional Skills

Visual Effects Compositor
Roto Prep
Stereo Paint / Comp
Photography

Additional Info

Hobbies – playing cricket,
watching movies, and
photography

Languages – English and

PRAVEEN KUMAR

ROTO | PAINT | COMP ARTIST

With over a decade of experience in the VFX industry, I have established myself as a seasoned professional with extensive expertise as a roto and paint artist. Regularly working on image planes has allowed me to develop a keen eye for detail and a deep understanding of the compositing process. Recently, I completed a 3-month Comp ATD training program, which expanded my skill set to include core techniques such as keying, colour grading, split comps, beauty fixes, retiming the plate, removing retime artifacts, and compositing of 2D/3D objects in live footage. During my training, I also gained an understanding of deep compositing and learned how to prep comps for first look and final approval, while collaborating with supervisors and other talented artists. I am always eager to learn new techniques and improve my existing skills. As a junior compositor, I am excited to bring my deep understanding of compositing techniques and passion for creating high-quality visual effects to a dynamic and collaborative VFX team. With my extensive experience and recent training, I am confident that I can make meaningful contributions to your team and help the team achieve its goals.

WORK EXPERIENCE

Sr. Roto Artist	Weta Digital Feb 2019 - present
